

# Pallecon M3

## The Optimum Food Container

**CHEP**

### Overview

A demountable liquid intermediate bulk handling solution designed to simplify the storage and handling of raw materials, ingredients and work in progress.

The M3 liquid Intermediate Bulk Container (IBC) is manufactured from food grade, recyclable HDPE panels with galvanised steel base and frame, and features a patented split lid design that slides back and locks into place eliminating the need to manually remove the lid.

Graduated sight glass provides a clear view of the level and quality of products being transported, and a plug in heater baseboard is available for improved discharge of viscous and difficult to handle products.

### Features and Benefits

- Features a patented split lid design that slides back and locks into place eliminating the need to manually remove the lid, providing a one piece IBC
- Graduated sight glass gives a clear view of the level and quality of your product
- Great alternative to 205 litre drums delivering 25% saving in storage and handling
- A plug-in Heater Baseboard is available for improved discharge of viscous and difficult to handle products
- ISO container compatible, four way entry pallet
- OH&S friendly, for one person handling, with half fold front drop gate for easy access
- Made from food grade, recyclable HDPE panels with galvanised steel frame
- Lockable, tamper evident lid, panels and low discharge outlet for superior product security
- No capital outlay, minimises packaging waste and disposal costs
- Highly efficient, flexible rental system – hired and de-hired via our depot network

### Specifications

#### Dimensions - in millimetres

	Length	Width	Height
External	1184	1119	1130
Internal	1015	1075	950

#### Nominal Capacity and Weight

Maximum capacity	1000 ltrs
	1 m3
Maximum load weight	1500 kgs
Tare weight	165 kgs

#### Configuration and Stacking

Stacked layers when open	5
Stacked layers when folded	15
Return Ratio	3:1

### Notes

#### Recommended Use / Applications

Ideal for the transportation of: fats & oils, glucose, liquid sugar, syrups, dairy, malt extracts, mayonnaise, wine, pharmaceutical and other food ingredients
